**DETAILED ACTION**

1. Claims 1-16 and 21-46 are presented for examination.

***Information Disclosure Statement***

2. IDS submitted on 6/8/2009 is considered.

***Reissue Applications***

3. Applicant is reminded of the continuing obligation under 37 CFR 1.178(b), to timely apprise the Office of any prior or concurrent proceeding in which Patent No. 5,999,977 is or was involved. These proceedings would include interferences, reissues, reexaminations, and litigation.

Applicant is further reminded of the continuing obligation under 37 CFR 1.56, to timely apprise the Office of any information which is material to patentability of the claims under consideration in this reissue application.

These obligations rest with each individual associated with the filing and prosecution of this application for reissue. See also MPEP §§ 1404, 1442.01 and 1442.04.

***Response to Arguments***

4. Applicant's arguments filed 1/20/2010 have been fully considered but they are not persuasive.

5. The amendment fail to overcome the improper recapture rejection since the amendment only recites “part of” the entire surrendered limitation. Applicant also indicated that this is only “in part” of the surrendered limitation (for example, see page 13, first line following the top claim language).

6. The Double Patenting rejection has been withdrawn.

### ***Reissue Applications***

7. Claims 16 and 21-46 are rejected under 35 U.S.C. 251 as being an improper recapture of broadened claimed subject matter surrendered in the application for the patent upon which the present reissue is based. See *Pannu v. Storz Instruments Inc.*, 258 F.3d 1366, 59 USPQ2d 1597 (Fed. Cir. 2001); *Hester Industries, Inc. v. Stein, Inc.*, 142 F.3d 1472, 46 USPQ2d 1641 (Fed. Cir. 1998); *In re Clement*, 131 F.3d 1464, 45 USPQ2d 1161 (Fed. Cir. 1997); *Ball Corp. v. United States*, 729 F.2d 1429, 1436, 221 USPQ 289, 295 (Fed. Cir. 1984). A broadening aspect is present in the reissue which was not present in the application for patent. The record of the application for the patent shows that the broadening aspect (in the reissue) relates to claim subject matter that applicant previously surrendered during the prosecution of the application. Accordingly, the narrow scope of the claims in the patent was not an error within the meaning of 35 U.S.C. 251, and the broader scope of claim subject matter surrendered in the application for the patent cannot be recaptured by the filing of the present reissue application.

Improper recapture of surrendered limitation were found in claims 16 and 21-46. Claims 16 and 21-46 either broadened or omitted the surrendered claim limitation of “terminating said

broadcast of said data and said multicast communication channel if at least two of said plurality of second endpoints do not transmit said acknowledgement messages containing a positive acknowledgement". This specific limitation was argued in the 12/28/1998 remark in page 2 to obviate a rejection in the patent (Patent Number 5,999,977). Emphasis was made in said arguments to show the distinction and novelty of having "at least two of said plurality of second endpoints" for transmitting acknowledgement messages. See MPEP 1412.02

***Conclusion***

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
